- Gujarati

PROJECTS

Nova-Skincare

This project is a responsive, front-end e-commerce website For skincare products, built using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**. It includes a working **add-to-cart system**, product display using **JSON**, and multiple functional pages.

Live Demo: <https://project-js-add-to-cart.vercel.app/>

Netflix Clone

A modern **Netflix Clone** built using **React.js**, integrated with **TMDB API** for real-time movie data and **Firebase Authentication** for **secure Login & Signup** using **Email/Password** and **Google OAuth**.

Live Demo: <https://netflix-clone-react-beta-two.vercel.app/login>

Library Management System

Developed a **React.js**-based Library Management System with full **CRUD** functionality and **real-time borrow/return** updates. Built a responsive dashboard with pagination and statistics, using **LocalStorage** / **JSON Server** for reliable data persistence.

Live Demo: <https://project-api-hunter-axios.vercel.app/login>

Mini-Blog

A full-stack blogging platform developed using **Node.js**, **Express**, **EJS** and **MongoDB**. Features secure user **authentication**, **session handling**, and complete blog post **CRUD** functionality.

Live Demo: <https://pr-login-system-with-blog-project.vercel.app/login>
